SAIFULLAH RAZZAQ

Senior Software Engineer | React Native | Typescript | JavaScript | Node.js | Express.js | MongoDB

03422-359217 | saifullah.razzaq1995@gmail.com | https://www.linkedin.com/in/saifullah-razzaq-7ab027139/

Pakistan, Karachi

PROFESSIONAL SUMMARY

Highly skilled **Senior Software Engineer** with over **6 years of experience** specializing in building, optimizing, and maintaining high-performance mobile applications for **iOS** and **Android**. Proficient in **React Native**, **TypeScript**, and **JavaScript**, with expertise in converting web apps to mobile platforms while ensuring seamless user experiences. Proficient at leading development teams, managing tasks, and delivering quality-driven solutions on time. Demonstrated success in developing and enhancing 30+ mobile applications, improving performance metrics, user engagement, and client satisfaction. Skilled in collaborating with cross-functional teams, integrating **APIs**, and leveraging modern tools like **Firebase**, **GraphQL**, and **REST APIs**. Committed to following industry best practices, staying updated on emerging technologies, and driving efficiency with automated testing, **CI/CD**, and Agile methodologies.

SKILLS

- **Languages & Frameworks**: TypeScript, JavaScript, React Native, Redux, Node.js, Express.js, MongoDB, Firestore, Firebase, REST APIs, GraphQL.
- **Agile Methodologies**: Proficient in Agile development practices, including Scrum and Kanban.
- **Software Architecture**: Expertise in designing scalable, maintainable, and high-performance software architectures for web and mobile applications.
- **Development Practices**: Strong focus on test-driven development (TDD), automated testing with Jest and Enzyme, and continuous integration and delivery (CI/CD).
- **Tools & Technologies**: Git for version control, project management tools like JIRA, and CI/CD pipelines for automated deployments.
- **Collaboration & Communication**: Adept at working in cross-functional teams, facilitating code reviews, mentoring junior developers.

PROFESSIONAL EXPERIENCE

JS Bank, Karachi, Pakistan   Mar 2025 – July 2025
MEAN Developer

- Developed a responsive web application for JS Bank using Angular and Bootstrap for the frontend.
- Built robust backend services with Node.js, Express, and MongoDB for efficient data handling.
- Integrated full-stack components to deliver a seamless banking user experience.

Jon East Digital Media, Dubai, United Arab Emirates   Mar 2024 – Feb 2025
Senior React Native Developer

- Led the development of mobile applications using TypeScript, JavaScript, React Native, Redux, and Firebase, achieving a 25% reduction in app load times through efficient coding practices and optimized API integration.
- Collaborated with backend developers to integrate REST APIs and GraphQL services, ensuring seamless functionality and resolving integration issues, which resulted in a 15% improvement in application performance and user experience.
- Supervised and mentored junior developers, assigning tasks based on skills, monitoring progress, and providing actionable feedback, leading to a 20% increase in task completion efficiency within project timelines.

Logicose, Karachi, Pakistan   Jul 2022 – Jan 2024
Senior React Native Developer

- Designed, developed, and maintained 15+ mobile applications using React Native, achieving a 25% increase in client satisfaction and enhancing app performance.
- Implemented automated testing frameworks like Jest and Enzyme, reducing bug occurrences by 30% and improving deployment speed by 20%.
- Optimized mobile app functionality by integrating REST APIs, GraphQL, and native APIs, ensuring seamless user experiences and reducing app crashes by 30%.

LN Technologies, Karachi, Pakistan   Apr 2020 – Jul 2022
React Native Developer

- Collaborated with cross-functional teams to design, develop, and release 10+ app features, enhancing user experience and boosting average session length by 15%.
- Optimized application performance, increasing speed by 25% and reducing load time by 30%, ensuring smoother user interactions on Android and iOS platforms.
- Led the migration of 5 web applications to React Native, expanding mobile accessibility and streamlining user engagement across devices.

Tamkeen International, Karachi, Pakistan   Dec 2018 – Mar 2020
Junior React Native Developer

- Developed and maintained 7+ mobile applications for Android and iOS using React Native, ensuring smooth functionality and user-friendly interfaces.
- Assisted in implementing automated testing systems and integrating continuous integration pipelines, reducing deployment time by 20% and improving code quality.
- Collaborated with senior developers to design and implement the data presentation layer for multiple applications, enhancing performance and data visualization.

EDUCATION

Bahria University, Karachi, Pakistan   2016 – 2020
Bachelor of Science, Computer Science

CERTIFICATIONS

- Data Science – Simple Learn: Advance Data Science
- Web and Mobile App Developer -SMIT: JavaScript, ES6+ syntax, and advanced JavaScript Programming.
- Meta Front-End Developer – Coursera: React Native and Redux Library.
